

J&M Fluidics offers...

Chiller Data Storage

J&M Fluidics, Inc.
851 Tech Drive
Telford, PA 18969

STANDARD ON ALL CHILLER MODELS:

All models are supplied with an **8gb SD Card for Chiller Data Storage.**

Daily chiller activity is stored on the card when the chiller is running.

You can pop the card out of the side slot of the HMI, plug into an SD card reader, download and view the chiller data (HG Data) on your computer.

8gb SD Card

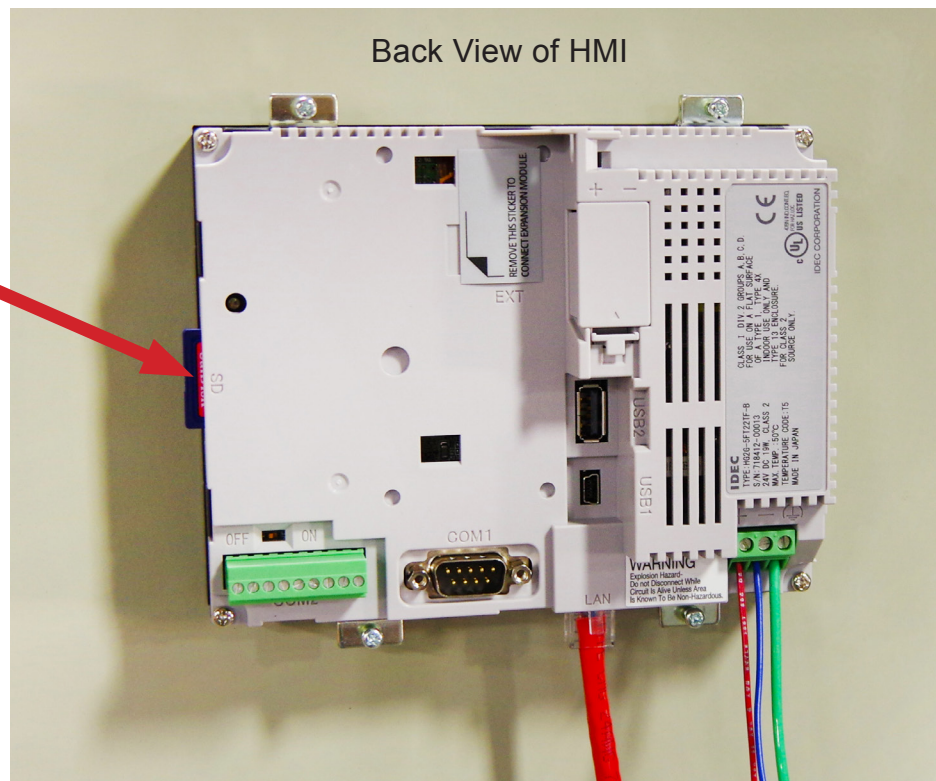

You can pop the card out of the side slot of the HMI.

Remember to put the card back into the HMI

to continue storing valuable chiller data.
